Wonderfully thick shower gel goes a long way and also doubles as a bubble bath! Customers have repeatedly asked for a liquid hand soap, but we were disappointed that we could not find a higher quality or better soap than our own shower gel. So we found a great Bunny Soap Saver for you to dilute your favorite fragrance of shower gel- 1 part gel to 4 parts water. Our shower gels are DEA free. (Diethanolamine is a stabilizing and emulsifying agent used in many bath products because it keeps the ingredients from separating and helps foaming properties, however, lab studies on mice suggest it may cause cancer, so we chose not to use it in our products.)

Bunny Soap Saver (\$6.25) Makes a great dispenser for our shower gel and gives you a rich creamy, foamy hand soap (like mousse) everyone will love at every sink in the house.
