

Who Brought Their Banana?

Your hostess tonight will be the judge, but I'm the one who brought
the fudge
And all the other toppings too, to make a delicious dessert for you.

Now look at your banana and give yourself 4
For having a banana with 10 spots or more

Now if your banana's a vibrant green, give yourself the count of 16
And if yours is the longest one, give yourself 21

But let's be kind to the one most short,
And give her 10 points for being a sport

A yellow banana's the best to eat,
It'll give you 10 points which is a treat.

Now if yours is bruised, softened or brown,
Deduct 2 points, what a let down.

The one who has the longest stem,
Gives you easily another 10.

But if your stem is tattered or broken,
TAKE 2 points as a little token.

If it's a high score that you are looking for (and it is)
Booking a show gets you 30 points more.

Now count your points and add up your score,
The one with the most is what we are looking for!

This game is well suited for the Banana Split Party or the Fruit Salad Party!
